

Steps to be followed for Ping Installation.

Pre-installation checks:

1. Identify the Windows version 7,8 or 10
2. Identify Windows operating System 32 or 64 bit version
3. Identify Chrome version and install if not present

Minimum requirements:

Windows	Version _____	Yes / No
Chrome installed	Version _____	Yes / No

Installation:

Debugging:

- 1.If the message is getting spread even after all the settings are correct then please clear browser history.
3. If exe not run then try to execute exe from command prompt.
5. If you want to shut down your exe then run batch file.

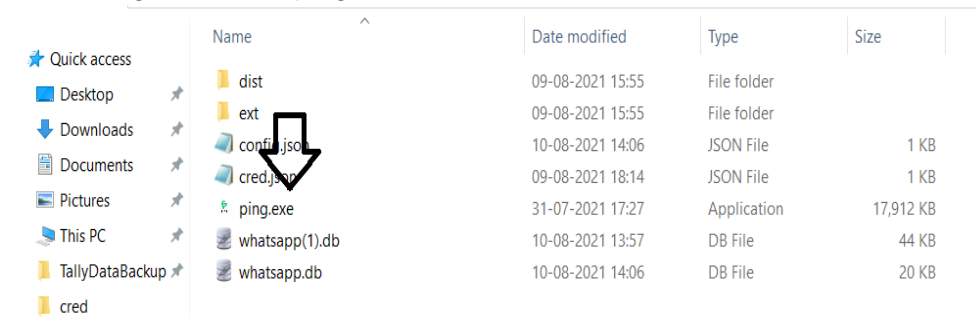

Windows 7 32 Bit Operations

1. Type <http://ping-app.online/> go

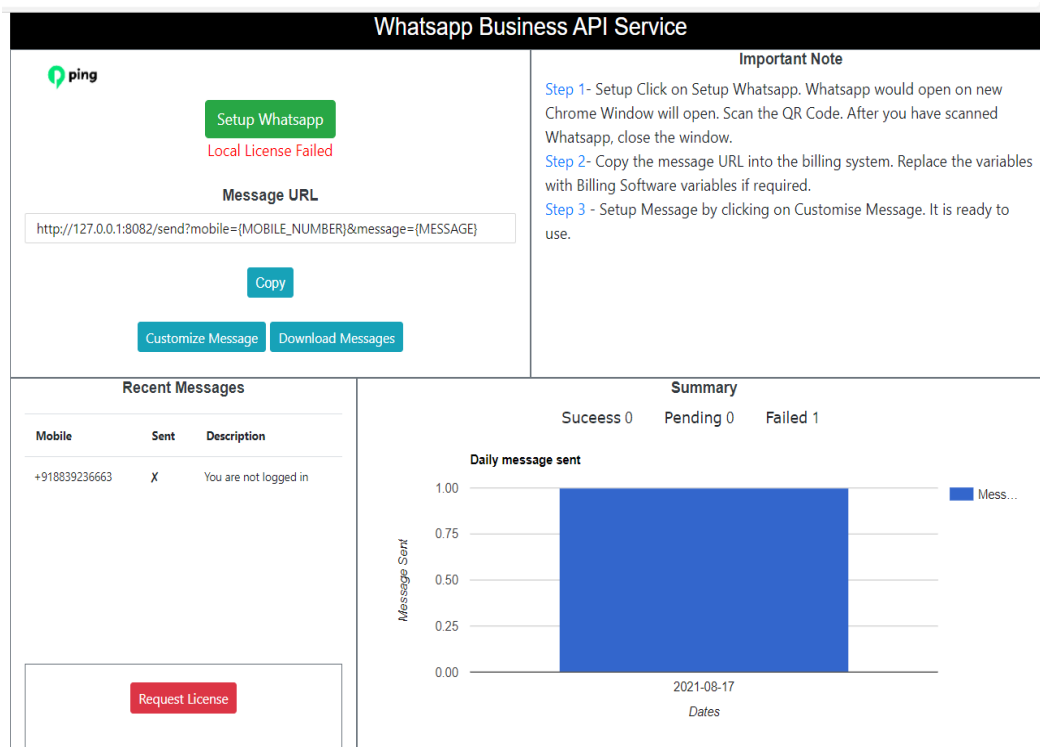

[Download](#)

2. Click ON Download Button
3. Extract ZIP File
4. Copy Ping Folder And Move On C Drive
5. Inside Ping folder one ping.exe file

6. Double Click On That File
7. Now Ping Open On Your Default Browser

8. Click On Request Licence Button
